

Bid#26-007 TSPLOST Milling & Resurfacing Year 5

Addendum #3

1. Please certify the 135 lbs. is the correct spread rate for the asphalt as quantities do not match the takeoff we have done for these roads. **Proceed with quantities as listed.**
2. Gate Ridge Dr has a railroad crossing it, will we be paving within 50 feet of the railroad tracks and if so, will we need RRP insurance? **RRP insurance will not be needed as the contractor will need to stay out of railroads limits.**
3. Do you still want pricing for items with zero quantity? **Pricing for items with a zero quantity is not required, and is at the contractors choice if pricing for zero quantity items is listed.**
